### **Publication and Update**

- Last day of April and October

### **Journal Aims**

International Journal of Beauty Science and Technology (IJBST) aims to collect current scientific research, both pure and applied in the field of beauty science and technology. To encourage basic scientist, cosmetic chemist, dermatologist and clinicians to publish their theoretical and experimental results in accurate details as possible.

To bridge the gap of users who do not have access to major databases where one should pay for every downloaded article; this online publication platform is open to all readers as part of our commitment to global scientific society.

### **Journal Topics**

The main topics include but will not be limited to: (Excellent surveying works, summary or introduction of new or fresh idea in these areas are welcome, too).

- Materials and ingredient research related to cosmetics
- Therapeutic options for skin, hair and body care
- Product formulations and ingredients
- Technologies in cosmetic product development
- Testing of skin and hair products
- Toxicological studies of cosmetic products
- Facial rejuvenation, laser therapy
- Cosmetic surgery and related medicine techniques
- Pure and applied research on dermatology
