

# Foreword and Editorial

## **International Journal of Communication Technology for Social Networking Services (IJCTSNS)**

We are very happy to publish this issue of an International Journal of Communication Technology for Social Networking Services by Global Vision School Publication.

This issue contains 2 articles. Achieving such a high quality of papers would have been impossible without the huge work that was undertaken by the Editorial Board members and External Reviewers. We take this opportunity to thank them for their great support and cooperation.

In the research paper "Effects of Social Support and Turnover Intention on Stress Response of Sexual Harassment Counselor", The purpose of this study was to investigate the relationship between the social support and turnover intention of stressful response and the social support of sexual harassment counselor in college. The results of the study are as follows. First, social support and turnover intention were found to be correlated with stress response. Second, social support and turnover intention had a statistically significant effect on stress response. Third, social support was the most influential factor in the stress response of sexual harassment counselors in college, followed by major field and turnover. Stress response was found to have a negative relationship between social support and static relationship and turnover intention. It was found that the sexual harassment counselors were stressed by the work but they could lower their intention to leave through social support.

In the paper "A Case Study for Developing the University Competitiveness Index", this paper investigates the awareness of students in D university in Gyeongsangbuk-do Province to examine the university competitiveness index. The research results are as in the followings. First, university students prefer the items in the sections of university competitiveness index such as the quality of education in the condition of education section, the proportion of English courses in the internationalization section, the quality of research in the research section, and the employment rate in the social reputation section. The condition of education section is ranked in the first place, and the social reputation section is ranked in the second place, and the internationalization section and the research section are ranked in the third place on the most important section ranking of the university competitiveness index. Second, the condition of education section is ranked in the first place, the social reputation section is ranked in the second place, the internationalization section are ranked in the third place, and the research section is ranked in the fourth place on the most important section ranking of the cooperation sections among domestic universities. The order of priority for establishing the cooperative relationship is as universities in the whole country area, universities in the metropolitan area, prestigious universities, and neighboring universities.
