Publication and Update

Last day of October

Journal Aims

Our Journal provides a chance for academic and industry professionals to discuss recent progress in the area of image and signal systems engineering.

To bridge the gap of users who do not have access to major databases where one should pay for every downloaded article; this online publication platform is open to all readers as part of our commitment to global scientific society.

Journal Topics

The main topics include but will not be limited to: (Excellent surveying works, summary or introduction of new or fresh idea in these areas are welcome, too).

- Detectors and image formation
- Emerging detection/imaging technologies
- Image system design, image instrumentation/measuring techniques
- Linear and nonlinear techniques for image processing
- Metadata and media abstracts
- Multimedia content processing
- Multimedia data compression
- Multimedia systems
- Nanoimaging, molecular nanophotonics
- Signal processing
- Signal systems
- Biomedical signal processing

Advisory / Editorial Board

- Daniele Giusto, University of Cagliari, Italy
- Janusz Kacprzyk, Systems Research Institute, Polish Academy of Sciences
- Peddi Kishor, Sree Chaitanya Institute of Technological Sciences
- R. Hornero Sánchez, University of Valladolid
- Salah Bourennane, Ecole Centrale de Marseille, Marseille
- Thumrongrat Amornraksa, King Mongkut's University of Technology Thonburi
- W. Wang, University of Surrey
- Y. Wiseman, Bar-Ilan University

Editorial Secretary

- Simon Chan
- Lyn Ruiz Curio
- Haiying Wang
- Yuyu Yin
