Publication and Update

Last day of March and October

Aim and Scope

Our Journal provides a chance for academic and industry professionals to discuss recent progress in the area of mobile device engineering

To bridge the gap of users who do not have access to major databases where one should pay for every downloaded article; this online publication platform is open to all readers as part of our commitment to global scientific society.

Journal Topics

The main topics include but will not be limited to: (Excellent surveying works, summary or introduction of new or fresh idea in these areas are welcome, too).

- Adaptive and Adaptable environments using mobile devices
- Architectures and infrastructures for ubiquitous mobile systems
- Cross-cultural mobile communications
- Facilitation of Mobile Learning
- Future trends in m-technologies
- Integrated mobile marketing communications
- Location management
- Metric mobile business enterprises
- M-learning applications
- M-learning standards
- Mobile ad hoc networking, wireless information assurance
- Mobile advanced training application design, evaluation, and use
- Mobile assistive technologies design, evaluation, and use
- Mobile commerce application design, evaluation, and use

- Mobile Computing
- Mobile healthcare application design, evaluation, and use
- Mobile interactive play design, evaluation, and use
- Mobile learning application design, evaluation, and use
- Mobile measurement technologies
- Mobile technology design, evaluation, and use by special
- Mobile technology support for educator and student
- Mobile Web and video Conferencing
- Multimedia and virtual environments
- PDAs in services delivery
- Remote and virtual laboratories
- Services for mobile networks
- Smart Agent Technologies
- Social Impact of Current and Next-generation Mobile Technologies
- Teaching mobile communication applications
- Wireless advertising/CRM
- Wireless and Ad-hoc Networks

Advisory / Editorial Board

- Alvaro Suárez-Sarmiento, University of Las Palmas de Gran Canaria, Spain
- Anand Nayyar, Punjab Technical University, India
- Andrea Sanna, Politecnico di Torino, Italy
- Chih-Lin Hu, National Central University, Taiwan
- David E. Douglas, University of Arkansas, USA
- Jiangping Wan, South China University of Technology, China
- Lilit Hakobyan, Aston University, United Kingdom
- Manas Mittal, UC Berkeley, United States & Intuit Inc., United States
- Muhanned I. Alfarras, Technology at Gulf University, Kuwait
- Reima Suomi, Turku School of Economics, Finland
- Riz Rupert Ortiz, Northwest Samar State University, Philippines
- S. Kami Makki, Lamar University, USA
- Sheng-Shih Wang, Minghsin University of Science and Technology, Taiwan
- Simon Lui, Singapore University of Technology and Design, Singapore
- Subodha Kumar, Texas A&M University, United States
- William Buchanan, Napier University, United Kingdom

Editorial Secretary

- Lyn Ruiz Curio
- Haiying Wang
- Yuyu Yin
- Zhipeng Fan
