Publication and Update

Last day of November

Aim and Scope

Our Journal provides a chance for academic and industry professionals to discuss recent progress in the area of wearable device.

To bridge the gap of users who do not have access to major databases where one should pay for every downloaded article; this online publication platform is open to all readers as part of our commitment to global scientific society.

Journal Topics

The main topics include but will not be limited to: (Excellent surveying works, summary or introduction of new or fresh idea in these areas are welcome, too).

- IT Business practice, management and strategy
- Advanced researches and development in wearable devices
- Wearable devices and its applications to healthcare, transportations and others
- Sensor Devices
- Wearable headsets
- Fitness devices
- Smart watches
- Tailored technology
- Computer-mediated reality
- Clothing technology
- Healthcare Wearable Devices
- Augmented reality
- Ubiquitous computing
