Publication and Update

- Last day of March

Journal Aims

The objective of the IJIoTA is to publish high-quality research specifically towards the Internet of Things (IoT). To explore the range of related topics and generate research discusses in relation to IoT Applications. IJIoTA aims to facilitate and support research related to Internet of Things and its applications.

To bridge the gap of users who do not have access to major databases where one should pay for every downloaded article; this online publication platform is open to all readers as part of our commitment to global scientific society.

Journal Topics

The main topics include but will not be limited to: (Excellent surveying works, summary or introduction of new or fresh idea in these areas are welcome, too).

- Applications of the Internet of Things
- Automated IoT vulnerability identification
- Cloud and Services Computing
- Cyber-threats towards the IoT
- Dynamics of distributed IoT networks of embedded sensors and actuators
- Emerging Standards for an Internet of Things
- Internet and Online Services
- Internet of Everything (IoE)
- Internet of Things (IoT)
- Internet of Things Communication Systems
- Internet of Things communication systems and network infrastructures
- Internet of Things Network Infrastructures

- IoT Application Programming Interface (API)
- IoT development
- IoT Devices
- IoT Management
- IoT Platform
- Linking ‘Things’ to Location and Users
- Mobile ad Hoc Network (MANET) and Sensor Networks
- New Business Models Built around the Internet
- Online Communities and Social Networks
- Securing Information Technology
- Security and Privacy and Issues relating to linking ‘things’ to location and users
- Sensor Technology
- Service Oriented IoT Architecture
- Smart Cities
- Standard Development Organizations (SDO)
- Technology Adoption
- Text and Graphics Recognition
- The creative and artistic potentials provided by the internet of things
- The Geography of Things: Location and tracking of objects
- Wearable Computing
- Web of Things (WoT)
- Web Services

Advisory / Editorial Board

- Ali Shahrabi, Glasgow Caledonian University, United Kingdom
- Arun Kumar Sangaiah, VIT University, India
- Ashraf Darwish, Helwan University, Egypt
- Barbara Re, University of Camerino, Italy
- Bhekisipho Twala, University of Johannesburg, South Africa
- Chin-Ling Chen, Chaoyang University of Technology, Chinese Taipei
- Eduard Babulak, Institute of Technology and Business in Ceske Budejovice, Czech Republic
- Eleanna Kafeza, Athens University of Economics and Business, Greece
- Faruq Al-Omari, Jordanian Universities Network (JUNet), Jordan
- Georgios Theodoropoulos, Durham University, United Kingdom
- Hani Bani-Salameh, The Hashemite University, Jordan
- Hong Zhu, Oxford Brookes University, United Kingdom
- Iraklis Varlamis, Harokopio University of Athens, Greece
- Jing-Ming Guo, National Taiwan University of Science and Technology, Chinese Taipei
- Kun Ma, University of Jinan, China
- Liying Zheng, Harbin Engineering University, China
- Mahmoud Reza Delavar, University of Tehran, Iran
- Manolis Vavalis, University of Thessaly, Greece
- Marwan Omar, Saint Leo University, United States

- Mingdong Tang, Hunan University of Science and Technology, China
- Mohamed Eltayeb, Colorado Technical University, United States
- Mohammed Hussain, Zayed University, U.A.E
- Mu-Chun Su, National Central University, Taiwan
- Mustafa Sanli, Aselsan Inc., Turkey
- Natarajan Meghanathan, Jackson State University, USA
- Ning Kong, China Internet Network Information Center, China
- Pelin Angin, Purdue University, USA
- Qiang He, Swinburne University of Technology, Australia
- Rajkumar Rajasekaran, Vellore Institute of Technology, India
- Ram Ramanathan, University of Bedfordshir, United Kingdom
- Ricardo Jardim-Goncalves, New University of Lisbon, Portugal
- Robert Hegarty, Manchester Metropolitan University, United Kingdom
- Roberto Caldelli, University of Florence, Italy
- Roy Oberhauser, Aalen University, Germany
- Ruisheng Shi, Beijing University of Posts & Telecommunications, China
- Sergio di Martino, University of Napoli, Italy
- Shuo-Yan Chou, National Taiwan University of Science and Technology, Chinese Taipei
- Shwadhin Sharma, California State University, Monterey Bay, USA
- Suresh Shanmugasundaram, Botho University, Botswana
- Suresh Veluru, United Technologies Research Center Ireland, Ireland
- Talal H. Noor, Taibah University, Saudi Arabia
- Utk Köse, Usak University, Turkey
- Vijendra Singh, Northcap University, India
- Wafi Al-Karaghoul, Brunel University, United Kingdom
- Wassim Jaziri, Taibah University, Saudi Arabia
- Wenbing Zhao, Cleveland State University, China
- Wen-Jyi Hwang, National Taiwan Normal University, Taiwan
- William Butler, Capitol Technology University, United States
- Yas Alsultanny, Arabian Gulf University, Bahrain
- Zhongjie Wang, Harbin Institute of Technology, China
