

Table of Contents

A new Scheduling Mechanism Inspired of Artificial Immune System Algorithm for Wireless Sensor Networks	1
---	----------

Arash Nikdel, Amir Massoud Bidgoli and Mohammad Hossein Yektaie

Multiple Object Tracking Using SIFT Features and Location Matching	17
---	-----------

Seok-Wun Ha and Yong-Ho Moon

Providing Direct3D Features over the Desktop OpenGL	27
--	-----------

Nakhoon Baek and Kwan-Hee Yoo

Non-interactive Deniable Authentication Protocol using Generalized ECDSA Signature Scheme	39
--	-----------

Jayaprakash Kar

Study of Marker Array List Method for Augmented Reality Service Based Smart Home	51
---	-----------

Donghyun Kim, Yohwan So, Seoksoo Kim

A Study on Web Augmented Reality based Smart Exhibition System Design for User Participating	65
---	-----------

Ji-Hoon Lim, Eunseok Lee, Seoksoo Kim

Augmented Reality Game Interface Using Effective Face Detection Algorithm	77
--	-----------

Young Jae Lee, Geun Ho Lee
