Table of Contents

A Resource Management Mechanism of WBAN for Wireless USB Support **1**

Kyeong Hur, Won-Sung Sohn, Jae-Kyung Kim and YangSun Lee

Smart Elderly Home Monitoring System with an Android Phone **17**

Jer-Vui Lee, Yea-Dat Chuah and Kenny T.H. Chieng

Task Model and Task Ontology based on Mobile Users' Generic Activities for Task-Oriented Tourist Information Service **33**

Heum Park

Efficient Cluster Organization Method of Zigbee Nodes **45**

Sung-Je Woo and Boek-Duk Shin

Power and Performance Analysis of Smart Devices **57**

Min Choi

An Improved Website Structure Optimizing Algorithm **67**

Mingjun Li, Mingxin Zhang, Jinlong Zheng and Ying Lu

An Indoor Golf Simulator for Continuous Golf Games **75**

KeeHyun Park and SeungHyeon Lim

Filter Size and Color Pattern Investigation for Yamanaka Patterned Color Filter Array **85**

Gwanggil Jeon

Construction of Cognitive Radio Based Emergency Communication System and Application Scenario Analysis 97

Haitao Wang, Hui Chen, Shicai Zhu and Lihua Song

A Design of VCM (Vessel Communication Manager) Improving Communication Efficiency and Security with ARP (Azimuth based Routing Protocol) and NATF (Network Attack Traceback Facility) for Vessel Networking 105

Ina Jung, EunHee Jeong and ByungKwan Lee

Smart Home Security System Using Multiple ANFIS 121

Lee Sang-Hyun, Jeong-Gi Lee and Moon Kyung-Il

Mixed Reality System for Virtual Interior Design 133

Taewoo Han and Yong-Ho Seo

The Centralized Containment Strategy and Mathematical Modeling Analysis 143

Liu Yang, Wang Bailing, Yuan Xinling, Bai Xuefeng and Zhu Qiang

Development of the HEMP Propagation Analysis and Optimal Shelter Design, Simulation Tool "KTI HEMP CORD" 155

Gyung Chan Min, Yeong Kwan Jung and Jeong-Jin Kang

Improve Method on DOA Estimation Accuracy of Signal Subspace Sensitivity Based on Mutual Coupling Matrix 167

Kwan Hyeong Lee

A Study on the Context Service Model for Livestock Estrus Detection 177

Hyungi Kim, Seokkyun Jeong, Haengkon Kim and Hyun Yoe

Software Implementation and Comprehensive Performance of Uplink Channel on Mobile 4th Generation Technology 185

Mayada Faris Ghanim, Mohammad Faiz Liew Abdullah and Aws Zuheer Yonis

Ratiometric GPS Iteration Localization Method Combined with the Angle of Arrival Measurement 197

Jangwoo Park and Honggeun Kim

The Effect of Switch Triggering Offset and Switch on-time Duration on Harvested Power in Synchronized Switch Harvesting on Inductor 207

Jangwoo Park, Honggeun Kim, Changsun Shin, Kyungryong Cho, Yongyun Cho and Kisuk Kim

Cross-Layer QoS Architecture with Multipath Routing in Wireless Multimedia Sensor Networks 219

Si-Yeong Bae, Sung-Keun Lee and Kyoung-Wook Park

A Modified Denoise Approach for UCA DOA Estimation in Low SNR Case 227

Yuguan Hou, Lingfeng Chen and Yiying Shen

A k-Nearest Neighbor Search Algorithm for Enhancing Data Privacy in Outsourced Spatial Databases 239

Miyoung Jang, Min Yoon and Jae-Woo Chang

An Intelligent Bus Status Informing Scheme Exploiting Smartphone Application 249

Jang won Seo, Dae gyu Hwang, Kyung hee Lee, Ki seong Kim, Inho Jeon, Changqiang Jing and Youngok Kim

A Novel Template Weighted Match Degree Algorithm for Optical Character Recognition **261**

Mo Wenying and Ding Zuchun

Effect of Enhancing Learning through Annotation Similarity and Recommendation System **271**

Jae-Kyung Kim, Won-Sung Sohn, Kyung Hur and YangSun Lee

Research in Estimation of Temperature for Power Battery Based on Back Propagation Neural Network **283**

Haiying Wang, Shuangquan Liu, Tianjun Sun and Gechen Li

Development of Agricultural Cooperatives for Revitalization of the Rural Community – Focused on the Case Study of 'Sunkist' **293**

Jin-Young Kim

A Keyword Filters Method for Spam via Maximum Independent Sets **301**

HaiLong Wang, FanJun Meng, HaiPeng Jia, JinHong Cheng and Jiong Xie

The Implementation of Smart Home System Based on 3G and ZigBee in Wireless Network Systems **311**

Gwang Jun Kim, Chang Soo Jang, Chan Ho Yoon, Seung Jin Jang and Jin Woo Lee

Design of Obstacle Avoidance System for Mobile Robot using Fuzzy Logic Systems **321**

Xi Li and Byung-Jae Choi

Honey Bee Mating Optimization Technique Based Multi-machine Power System Stabilizer Design **329**

Ali Nazari and Amin Safari

Delaying Inter-tier Handover in Hierarchical Networks **345**

Seungjae Shin, Min Choi and Namgi Kim

Diversity of Mobile Distribution Systems **355**

Haeng-Kon Kim

Study on the Application of Ant Colony Algorithm in the Route of Internet of Things **365**

Ying Lu and Wen Hu

Enhanced Synchronizing Packet Coalescing Mechanism for Improving Energy Efficiency in Ethernet Switch **375**

Young-Hyun Kim, Sung-Keun Lee and Jin-Gwang Koh

Design and Implementation of Secure Control Architecture for Unmanned Aerial Vehicles **385**

Hyeok-June Jeong and Young-Guk Ha

Development of an Electronic Ordering and Payment System with Embedded Devices **393**

Se-Jun Park, Tae-Kyu Yang and Yong-Ho Seo
