Table of Contents

Study on the Background Extraction of Traffic Video in Smart City 1

Qin Ting

Energy Efficiency Improvement of the of a Cluster Head Selection for Wireless Sensor Networks 9

Jong-Yong Lee, Kye-dong Jung, Bhanu Shrestha, Jongsup Lee and Seongsoo Cho

Active Omni-directional Piezoelectric Energy Harvesting System for Wireless Monitoring on Electrical Traction Shearer 19

Xuhui Zhang

A Group mobility oriented History information based Light Location Service 33

Xinyu Yang, Linqi Li and Xiaojing Fan

A Proposed Scheme for City Family Health Information System 49

Wen Si, Hong-hao Gao and Xue-yi Li

Energy Efficient Topology Control Protocol for Wireless Sensor Networks 61

Hagar Noori, Arash Nikdel and Mahdi Mosleh

A Multiple Mobile Robots Path planning Algorithm Based on A-star and Dijkstra Algorithm 75

Zhanying Zhang and Ziping Zhao

Semantic-element-based Defining Approach for Model Transformation Rules 87

Lei Wang and Yuyan Zhang

Research on Workflow-based Modeling Method of Product Manufacturing Process 97

M. Lv and G. Wang

The Design and Implementation of the Integrated Model of the Advertisement and Remote Control System for an Elevator 107

Woon-Yong Kim and SoonGohn Kim

Fire Risk Assessment of Transmission Line Based on BP Neural Network 119

Jing Zhou, Weiqing Ma and Jinya Miao

Main Factors Affecting the Online Service Satisfaction-an Empirical Study in China 131

YanJu Li

Artificial Neural Network based Short Term Load Forecasting 145

D. Kowm, M. Kim, C. Hong and S. Cho

Multi-armed Bandit Online Learning Based on POMDP in Cognitive Radio 151

Juan Zhang, Hesong-Jiang, Hong Jiang and Chunmei Chen

A Bidirectional Contactless Power Transfer System Based on Quantum Modulation 163

Jianyu Lan and Houjun Tang

A Fuzzy AHP based Multi-criteria Decision-making Model to Select a Cloud Service 175

Hong-Kyu Kwon and Kwang-Kyu Seo

The Positioning Algorithm Research for Forest Fire Prediction 181

Dan Liu and Yanrong Zhang

Personal Health Care Management System Developed under ISO/IEEE 11073 with Bluetooth HDP 191

Am suk Oh, Doo Heon Song and Gwan Hyung Kim

Study on Parameter Optimization of Concave Disc Copying Icebreaking Snow Sweeper 197

Li Yaqin, WuWenfu, Wang Junfa, Li Xiaoxia and Wang Rui

Characteristic Analysis of Peak Load in Electricity on Large Scale Hotels Considering the Energy Efficiency 207

Ji-Hye, Ryu, Won-Hwa, Hong and Youn-Kyu, Seo

Design and Implementation of HTML5 based SVM for Integrating Runtime of Smart Devices and Web Environments 223

Yunsik Son, Seman Oh and Yangsun Lee
