

Table of Contents

Design of Multi-Channel Wireless Sensor Networks Based On Compressive Sensing Theory and Spectrum Sensing Theory 1

Naji Ma, Ming Diao, Xiao Hu, Jian Sun and Anchang Ma

A Survey on Smart Meeting Rooms and Open Issues 13

Carlos Filipe Freitas a, João Barrosob and Carlos Ramos

Multiple Computation Models for the Prediction of Private Vehicle Ownership in Chinese Area 21

Jinbing Song

The Modeling Methods of Heavy NC Machine Tool Bolt Joint Based on Virtual Media 29

Ren Sheng-Le, Gao Fei, Dai Ye, Wang Peng and Cheng Tian-Yu

Low Voltage Complementary Metal Oxide Semiconductor Based Internet of Things Enable Energy Efficient RAM Design on 40nm and 65nm FPGA 37

Aditi Moudgil, Kanika Garg and Bishwajeet Pandey

Research on Home Healthcare Management System Based on the Improved Internet of Things Architecture 51

Benzhen Guo, Beibei Dong, Xiao Zhang, Jingjing Yang and Zhihui Wang

Research on Planning of the Integration of Urban and Rural Areas, and Construction of Landscape Green Space System, of Lucheng City 63

Weicheng Han and Tieying Li

Remote Instant Interactive of Smart Building Home Equipment Based on Dynamic IP 73

Jianming Cui and Mi Xia

Battery Management System Design and Implementation of Intelligent Emergency Light Based on the Technology of Loose Capacitance and FSM 83

Xu Chunyan, Jiang Yan, Zhang Weichong and Xu Tao

Moving Target Detection and Tracking in Complex Background 95

Gu Bo, Hu Hao, Ren Yan and Liu Xinyu

**Research on Novel Image Classification Algorithm based on Multi-Feature
Extraction and Modified SVM Classifier 103**

Bingquan Huo and Fengling Yin

**The Application of the Smart Technique in the Construction and Management
of Urban Park Green Spaces 113**

Yichuan Zhang and Yan Li

Application of Digital Simulation Technology in Environmental Design 119

Fei Wang

**The Research of Intelligent Irrigation Control System of Rice in Cold Region
129**

Na Wang and Jinming Liu

**Research on Operation Risk and Perceived Physical Condition of Old People:
an Empirical Analysis based on Online Follow-Up Survey 139**

Long Xiaodong, Chen Liang , Wang Yuefeng, Tao Gan Chen and Chen Yuanping

**Ontology-based Context Modeling to Facilitate Reasoning in a Context-Aware
System: A Case Study for the Smart Home 151**

M. Robiul Hoque, M. Humayun Kabir, Keshav Thapa and Sung-Hyun Yang

**Design of Sunshade Board with South External Window of Residential Building
in Hangzhou Based on Software Simulation Analysis of Energy Saving 157**

Zhemin Xu

**Research on the Implementation of Image Degradation and Restoration by
using Model-Based Design Methodology 167**

Yuge Yao, Yandong Yu and Yang Nie

**Efficient Anonym Smart Card Based Authentication Scheme for Multi-Server
Architecture 177**

An Braeken

**A Study on the Proper Position of Illumination Sensor for Dimming Lighting
Control Based on Practical Life: Focusing on Summer Solstice and Winter
Solstice 185**

Juil Park, Heangwoo Lee and Yongseong Kim
